

MYKAPITAL RISK WARNING

MyKapital Platform facilitates approved SSM Interest Schemes' subscriptions and provides an all-in-one issuer-investor management solution.

BUSINESS RISK

Companies seeking to raise funds are typically at a stable stage but seeking opportunities to grow and expand. Investing in such companies at early stages of growth presents the potential for significant financial returns. However, it also carries the inherent risk of business failure, and you could lose part or all of your investment.

ILLIQUIDITY

Investments in SSM Interest Schemes should be approached with a long-term perspective. The minimum tenure for an SSM Interest Scheme is typically at least two (2) years, but it can extend to a longer term. Once subscribed to an SSM Interest Scheme, there may be restrictions or exemptions related to buy-back options. If you wish to transfer your interest units to another person, you may need to identify a purchaser independently.

NO GUARANTEED RETURNS

The companies listed on this platform are focused on growth and expansion. As such, MyKapital does not guarantee any returns as projected or offered by these companies. Your investment outcomes will depend solely on the performance of the company.

KNOWLEDGE AND EXPERIENCE

Investing in SSM Interest Schemes requires careful consideration and due diligence. You are strongly advised to conduct your own research, seek professional advice, and evaluate the risks before making an investment decision.

NO FINANCIAL ADVICE

MyKapital does not provide personalised financial advice to investors. Decisions regarding investment suitability should be made by you independently or with the guidance of a qualified financial advisor.

NO GUARANTEE OR ENDORSEMENT BY MYKAPITAL OR PARTNERS

Neither MyKapital nor its partners provide guarantees or endorsements for any SSM Interest Scheme listed on the platform. While MyKapital or its partners may choose to invest in an SSM Interest Scheme, such participation does not constitute a recommendation or an endorsement of the SSM Interest Scheme.
